EDUCATION

JABALPUR ENGINEERING COLLEGE

Bachelor of Technology in Information Technology

Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOP

Jabalpur, M.P.

Expected July 2026

TECHNICAL SKILLS

Languages: C, C++, Java, JavaScript, TypeScript

Frontend: React.js, Next.js, Redux, React Query, Tailwind CSS, HTML5/CSS3, Ant Design, PWA, WebPack

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Microservices Architecture

Database: MongoDB, Mongoose ODM, Firebase Firestore, Firebase Realtime Database

Tools: Git, GitHub, VS Code, Postman, Vercel, Docker, npm, Chrome DevTools

EXPERIENCE

SKYSTAR SOFTWARE

Backend Developer Intern

Remote

May 2025 – Jun 2025

- Developed and maintained RESTful APIs using Node.js and Express.js to support core application functionality.
- Implemented CRUD operations with MongoDB, handling data models, validation, and error management across multiple endpoints.
- Collaborated with the frontend team to define API contracts, ensuring seamless integration and consistent response structures.

PROJECTS

AUTOAPPLY AI : Next.js · Express.js · MongoDB · Puppeteer/Cheerio · Groq (Llama 3)

[Github](#) [Live](#)

- Built an AI-powered job application assistant that scrapes job postings via Puppeteer/Cheerio and analyzes resume-to-role compatibility, generating a 0–100 match score with missing-keyword and resume-improvement feedback.
- Designed a research agent that retrieves company news, goals, and recent initiatives, then feeds this context into Groq's Llama 3 to auto-generate personalized cold emails and cover letters referencing specific company details.
- Architected the full pipeline across Next.js frontend, Express.js backend, and MongoDB persistence — integrating multiple AI/automation stages (scraping, research, scoring, generation) into a cohesive end-to-end workflow.

REAL-TIME COLLABORATIVE CODE EDITOR : Next.js · TypeScript · Express.js · MongoDB · JWT · Socket.io

[Github](#) [Live](#)

- Built a multi-user collaborative code editor with real-time synchronisation using Socket.io and Operational Transformation — resolving concurrent edits across sessions without conflicts.
- Integrated Monaco Editor with syntax highlighting, sandboxed Docker code execution, and WebSocket-based presence awareness showing active collaborators and live cursor positions.
- Led a 3-member team (VIII Semester, JEC) through planning, task delegation, and sprint coordination — delivering the project on schedule under supervision of Prof. S. R. Dhurvey.

ACTIVITIES

JABALPUR ENGINEERING COLLEGE — MINOR PROJECT LEAD

Team Lead

Jabalpur, M.P.

2025 – Present

- Led a 4-member team for the college Minor Project — responsible for planning, task delegation, sprint coordination, and on-time delivery.
- Led a presentation of Major Project in front of more than 100 students and professors.
- Coordinated cross-functional collaboration across design, backend, and frontend, ensuring all milestones were met within the academic timeline.

CHESS PLAYER

Active Member

- 1200 rated on Chess.com and 1500 rated on Lichess; actively participates in online tournaments to sharpen strategic and analytical thinking.
